

Findings

To test my email campaign, I signed up for the Trial version of Litmus. It allowed me to test my email on various different clients, as well as email them to myself. For Gmail, many of the keyframe animations do not work, as Gmail doesn't support those. I included some fallbacks for clients that don't support :checked. Here is an example of my email on Gmail, both for mobile (iOS and Android) and web:

I also learned that Apple Mail has the most compatibility with my campaign, where pretty much everything was working perfectly. Here are some screenshots:

iPad:

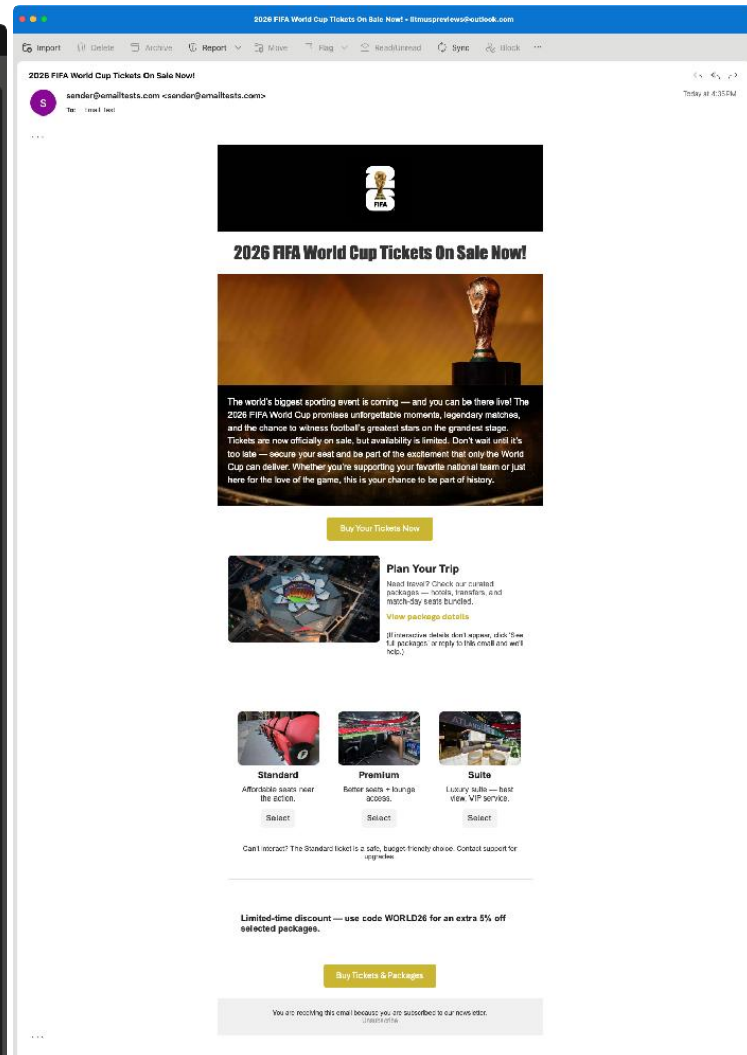

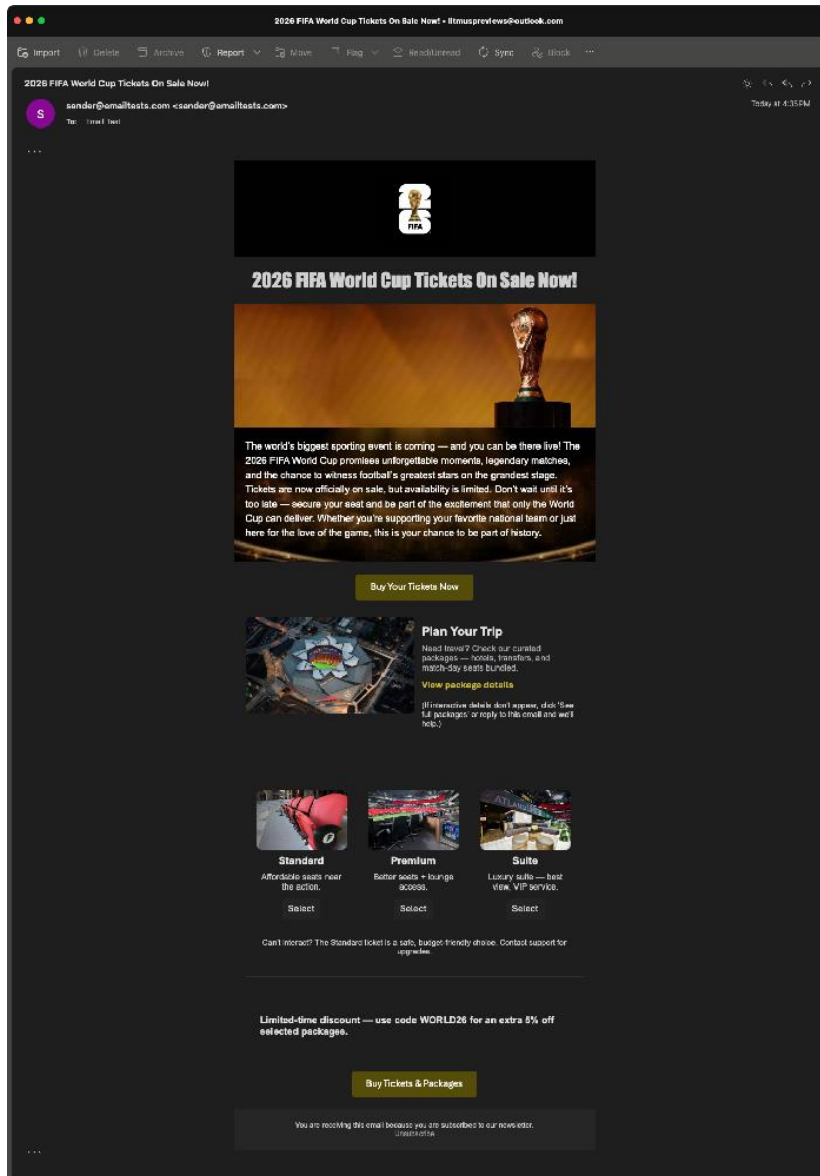

iPhone 16:

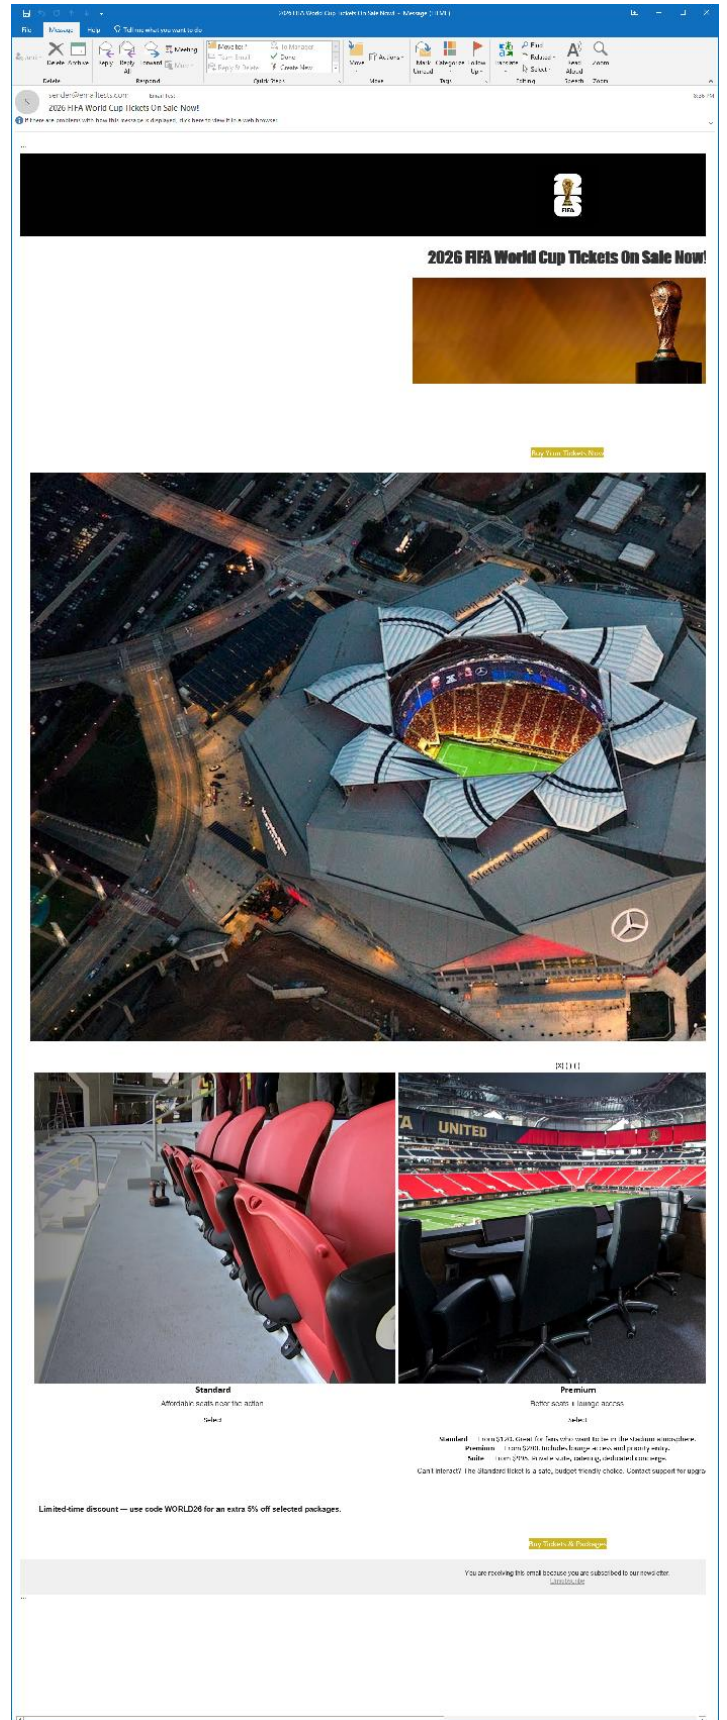

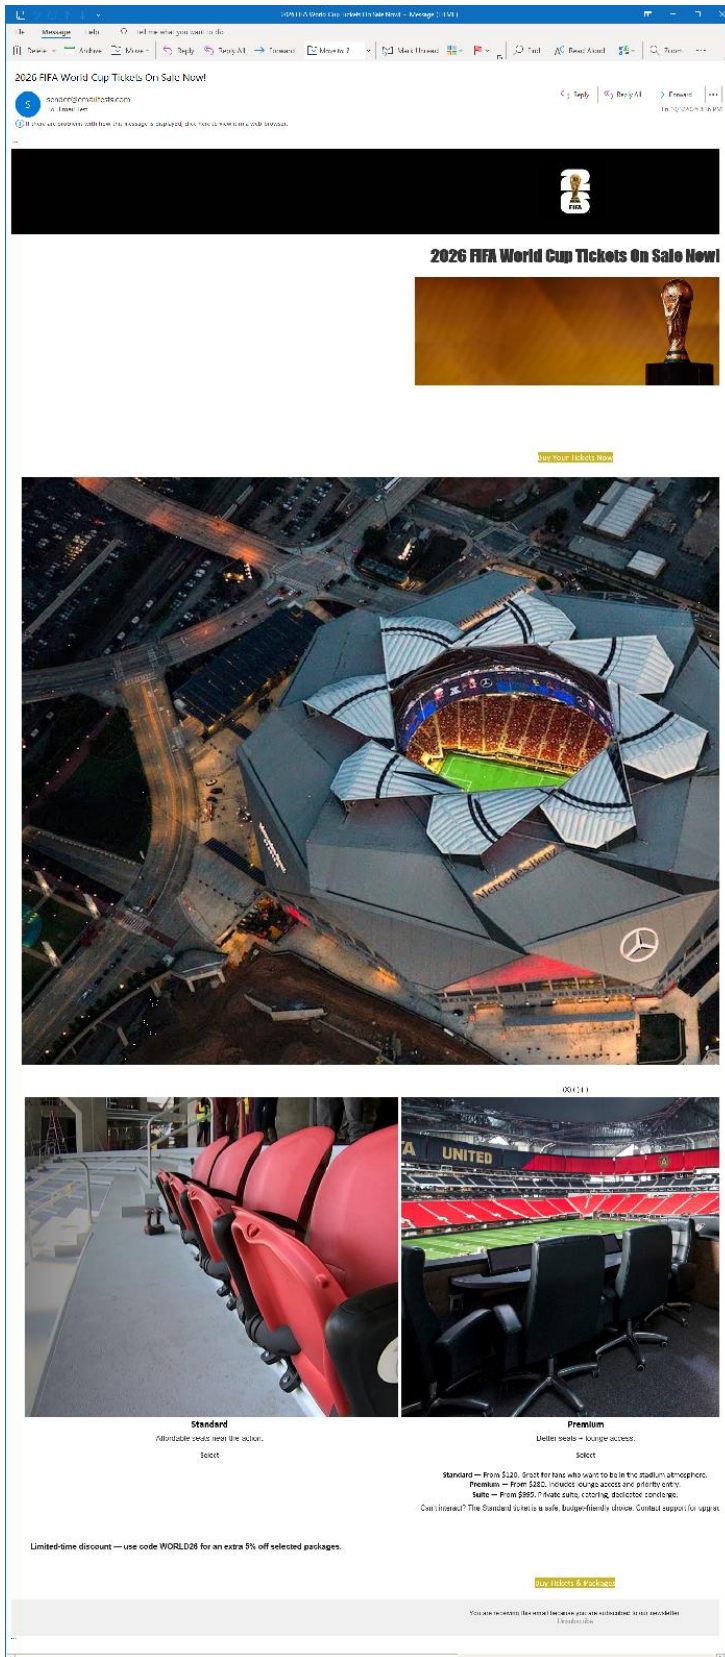

My email also worked on Outlook web and Outlook for Mac, but it seemed to completely break on some older versions of Outlook Office 365:

Working versions on Outlook.com and Outlook for Mac:

Broken version on older Outlook versions (2019 and 2021):

The email campaign also worked perfectly on Yahoo! Mail in various browsers (below is Edge and Chrome):

Finally, I also tested the campaign on AOL, where everything was working as expected:
